Shelley Bickel, Public Health Director addressed the contractors in attendance.

Bickel gave a handout of design and electrical layout.

Then she began outlining the scope of the remodel inside and outside.

The 1st step of the project is leveling the concrete slab that the building sits on and then installing gutters.

Outside work is taking down the overhangs, painting and laying some new concrete slabs for entry.

Most of the interior will be removed with new offices being constructed.

Most importantly all doors will be 36" doors everywhere and that the facility must meet all building, fire and ADA codes.

After much discussion of the scope of the project and the different options for design, Bickel will work on selecting cabinets, countertop and faucets to make bids more uniformed.

As the meeting went on it was determined that there is a lot of unknown with the condition of the building and that it needs to be worked in stages.

Based on the scope and size of the project, the deadline for bids is backed up to October 11th and presented to Board of Supervisors at the October 18th meeting.

Bickel wants the remodel to be the best but to be conservative.
